

D3: Performance, Quality, and Ethical Consideration Report (10%)

Team: Spring/Summer 2026 (AI/ML Capstone Project)

Criteria		Plagiarized, GenAI Text 0%	Developing 33%	Satisfactory 67%	Excellent 100%	Grade
C1.	<u>Current Project Progress</u> (0.5 mark) - Briefly states current completion status. - Identifies completed features/model components. - Mentions remaining work before final submission. - Progress is realistic and concise.					G ₁ = 0.50
C2.	<u>Performance Evaluation and Quality Assessment</u> (3 marks) - Uses appropriate metrics for classification, regression, clustering, NLP, etc. - Includes tables, graphs, confusion matrix, or sample outputs where applicable. - Explains what the results indicate about model performance. - Connects results to model quality, reliability, and usefulness.					G ₂ = 3.00
C3.	<u>Mathematical Justification and Interpretation</u> (4 marks) - Includes correct mathematical formulas for selected metrics. - Shows calculations or calculated values clearly. - Explains what each value means in simple technical language. - Uses math to support statements about quality; unsupported claims are not accepted.					G ₃ = 4.00
C4.	<u>Ethical Considerations and System Limitations</u> (2 marks) - Discusses privacy, fairness, bias, transparency, and human oversight. - Identifies system/model limitations honestly. - Connects ethical issues to the team's own AI/ML project. - Considers responsible AI practices in a Canadian context.					G ₄ = 2.00
C5.	<u>Reflection and Future Improvements</u> (0.5 mark) - Identifies key implementation challenges. - Describes lessons learned. - Lists realistic improvements before the final technical report/demo. - Shows thoughtful reflection.					G ₅ = 0.50
